

Printing Instructions for Large Maps (Maps 1-4)

(The rest of the maps are "Quick Print" maps, and are already sized to print on 8 ½ x 11" paper)

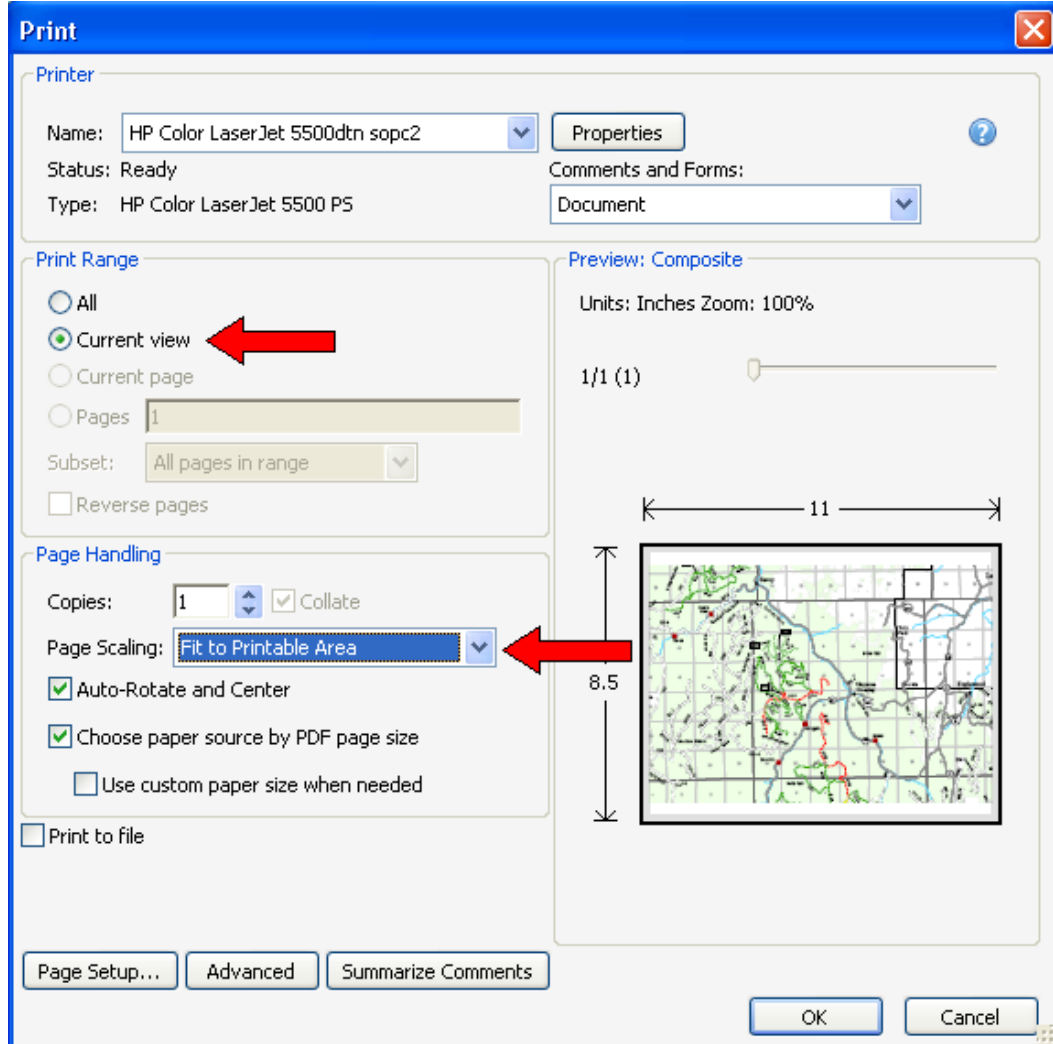

*These instructions can be used if the Area of Interest you desire is not covered by one of the Quick Print Maps.

Method 1: To print a PORTION of a large map on 8 ½" x 11" paper:

1. Open the map, Save it to your computer, and resize the window to about 8 ½ x 11"
2. Zoom to the area you'd like to print (type in 100% in the zoom box near the top of the document and hit "enter." Then scroll to the desired area).

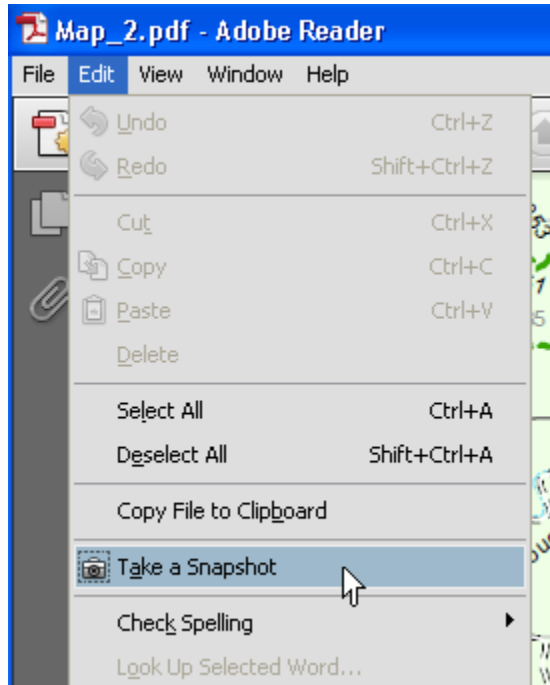

3. Click on File -> Print and change the Print Range to "Current View"
4. Change Page Scaling to "Fit Printable Area" Click "OK" to print.

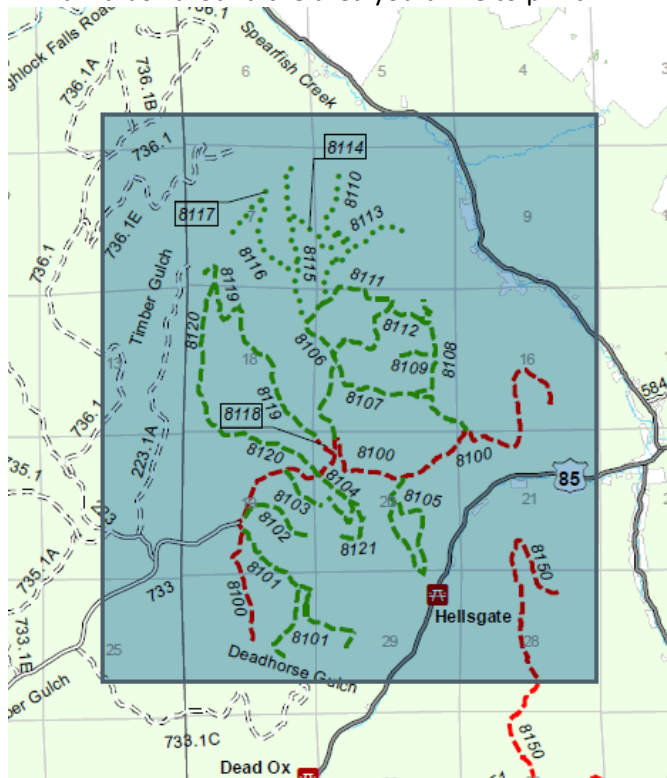

Method 2: Print a "Selected Graphic" using the "Snapshot Tool"

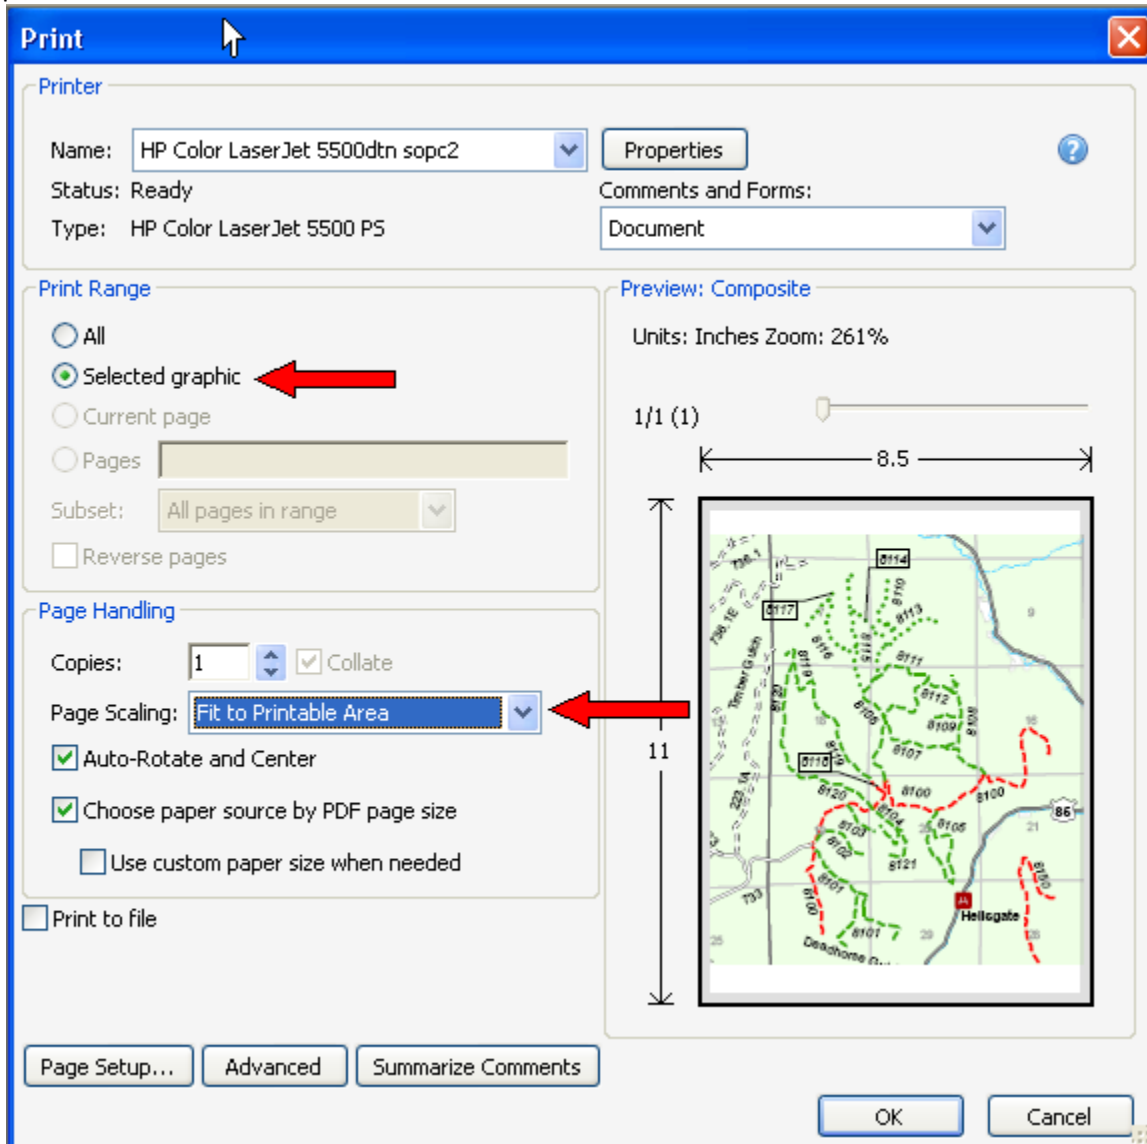

1. Open the map document and Save it to your computer.
2. Zoom in to your area of interest (see instructions in Method 1).
3. Click on Tools -> Select & Zoom -> Snapshot Tool. (or Click on Edit-> Take a Snapshot as shown in graphic below)

4. Draw a box around the area you'd like to print.

4. Click File ->Print and choose “Print Selected Graphic” and “Fit to Printable Area.” Then click “OK” to print.

(With the “Snapshot Tool” you can also open a different program and “Paste” the selected graphic into the new program and print from there.)

Finally, print the 8 ½”x11” Legend Page, found on the website.
